

IFRA Standards Certificate

Crunchie Bunny

Customer:

Product: **Candles & Home Fragrance**

We certify that the above fragrance is in compliance with the Standards of the INTERNATIONAL FRAGRANCE ASSOCIATION (IFRA - 50th Amendment published June 2021), provided it is used in the following class(es) at a maximum concentration level of:

| IFRA class(es) [see annex for detail] | Level of use (%) |
|---------------------------------------|------------------|
| Class 1                               | 34.00%           |
| Class 2                               | 15.55%           |
| Class 3                               | 8.19%            |
| Class 4                               | 95.99%           |
| Class 5A                              | 71.11%           |
| Class 5B                              | 4.19%            |
| Class 5C                              | 16.59%           |
| Class 5D                              | 1.40%            |
| Class 6                               | 8.19%            |
| Class 7A                              | 8.19%            |
| Class 7B                              | 8.19%            |
| Class 8                               | 1.40%            |
| Class 9                               | 37.99%           |
| Class 10A                             | 37.99%           |
| Class 10B                             | Unrestricted     |
| Class 11A                             | 1.40%            |
| Class 11B                             | 1.40%            |
| Class 12                              | Unrestricted     |

The IFRA Standards regarding use restrictions are based on safety assessments by the Panel of Experts of the RESEARCH INSTITUTE FOR FRAGRANCE MATERIALS (RIFM) and are enforced by the IFRA Scientific Committee.

Evaluation of individual Fragrance ingredients is made according to the safety standards contained in the relevant section of the IFRA Code of Practice.

It is the ultimate responsibility of our customer to ensure the safety of the final product (containing this fragrance) by further testing if necessary.

For other kinds of application or use at higher concentration levels, a new evaluation may be needed; please contact Pure Candle Supplies Pty Ltd.

## ANNEX: Definition of IFRA Classes

| Category | Product Type                                                                                                                  |
|----------|-------------------------------------------------------------------------------------------------------------------------------|
| 1        | Products applied to the lips                                                                                                  |
| 2        | Products applied to the axillae                                                                                               |
| 3        | Products applied to the face/body using fingertips                                                                            |
| 4        | Products related to fine fragrance                                                                                            |
| 5        | Products applied to the face and body using the hands (palms), primarily leave-on:                                            |
| - 5A     | Body lotion products applied to the body using the hands (palms), primarily leave-on                                          |
| - 5B     | Face moisturizer products applied to the face using the hands (palms), primarily leave-on                                     |
| - 5C     | Hand cream products applied to the hands using the hands (palms), primarily leave-on                                          |
| - 5D     | Baby Creams, baby Oils and baby talc                                                                                          |
| 6        | Products with oral and lip exposure                                                                                           |
| 7        | Products applied to the hair with some hand contact                                                                           |
| - 7A     | Rinse-off products applied to the hair with some hand contact                                                                 |
| - 7B     | Leave-on products applied to the hair with some hand contact                                                                  |
| 8        | Products with significant anogenital exposure                                                                                 |
| 9        | Products with body and hand exposure, primarily rinse off                                                                     |
| 10       | Household care products with mostly hand contact                                                                              |
| - 10A    | Household care excluding aerosol products (excluding aerosol/spray products)                                                  |
| - 10B    | Household aerosol/spray products                                                                                              |
| 11       | Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate                            |
| - 11A    | Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate without UV exposure        |
| - 11B    | Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate with potential UV exposure |
| 12       | Products not intended for direct skin contact, minimal or insignificant transfer to skin                                      |
