

## SAFETY DATA SHEET

According to Regulation (EC) No. 1272/2008 [CLP/GHS]

### SECTION 1 – CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

**Product Identification:** Crunchie Bunny

**Company Identification:** Pure Candle Supplies

17 Lacey St  
Croydon, VIC 3136

**For Information  
in Australia, call:**

(03) 9730 2213 Mon - Fri 9:00am - 5:00pm AEST  
13 11 26 National Poisons Information Centre

### SECTION 2 – HAZARDS IDENTIFICATION

#### Hazard Classification:

Eye Irritation Cat 2A  
Skin Irritation Cat 2  
Skin Sensitisation Cat 1  
Acute Aquatic Toxicity Cat 3  
Chronic Aquatic Toxicity Cat 3

#### Label Elements

##### Signal Word:

WARNING

#### HAZARD STATEMENTS:

H315 – Causes skin irritation.  
H317 – May cause an allergic skin reaction.  
H319 – Causes serious eye irritation.  
H402 – Harmful to aquatic life.  
H412 – Harmful to aquatic life with long lasting effects.

#### PRECAUTIONARY STATEMENTS:

P302 + P352 – IF ON SKIN: Wash with plenty of water and soap.  
P305 + P351 + P338 – IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do so. Continue rinsing.  
P333 + P313 – If skin irritation or rash occurs: Get medical advice / attention.  
P337 + P313 – If eye irritation persists: Get medical advice / attention.  
P362 + P364 – Take off contaminated clothing and wash it before reuse.

Full text of listed statements: See section 16.

### SECTION 3 – COMPOSITION AND INFORMATION ON INGREDIENTS

| CAS #    | Chemical Name                     | %         | Classification   |
|----------|-----------------------------------|-----------|------------------|
| 84-66-2  | diethyl benzene-1,2-dicarboxylate | >60%      | H316, H402, H412 |
| 121-33-5 | 4-hydroxy-3-methoxy benzaldehyde  | 10 - <30% | H302, H317, H319 |

### SECTION 4 – FIRST AID MEASURES

Eye: Flush immediately with clean water for at least 15 minutes. Contact a physician if irritation persists.  
Skin: Remove any contaminated clothing or shoes. Wash skin with soap and water. If irritation persists obtain medical advice.  
Ingestion: Give plenty of water to drink. Seek medical attention if necessary.  
Inhalation: Remove from the exposure to fresh air. Contact a physician as necessary.

## SECTION 5 – FIRE FIGHTING MEASURES

### Fire & Explosion Hazard:

In case of fire use foam, carbon dioxide (CO<sub>2</sub>), or dry powder. Keep containers cool by spraying with water if exposed to fire. Wear self-contained breathing apparatus and protective suit. Dispose of fire debris and contaminated extinguishing water in accordance with local regulations. Do not use full water jet.

## SECTION 6 – ACCIDENTAL RELEASE MEASURES

### Spills & Leaks:

Eliminate all ignition sources. Ventilate area. Contain spill and recover free product. Do not discharge product into drains, surface water or ground water. Absorb remainder on vermiculite or other suitable non-flammable absorbent material. Use of self-contained breathing apparatus is recommended for any major chemical spills. Place material and absorbent into sealed containers and dispose of in accordance with current applicable laws and regulation.

## SECTION 7 – HANDLING AND STORAGE

### General Precautions:

Care should be taken to observe any precautions given on the container.

### Handling:

Wash thoroughly after handling. Remove contaminated clothing and wash before re-use. Use only in a well ventilated area. Ground and bond containers when transferring material. Use spark-proof tools and explosion-proof equipment. Avoid contact with eyes, skin, and clothing – always wear safety goggles. Empty containers retain product residue (liquid and/or vapour), and can be hazardous. Do not re-use empty containers. Avoid contact with heat, sparks and flame. Do not pressurise, cut, weld, braze, solder, drill, grind, or expose containers to heat, sparks or open flame.

### Storage:

Store in a tightly closed container. Keep away from heat, sparks, flame, and sources of light. Store in a cool, dry, well-ventilated area away from incompatible substances.

### Other Precautions:

Good manufacturing practices dictate that an eyewash fountain and/or safety shower should be available in the work area. Smoking and naked flames should not be permitted in areas where product is handled.

## SECTION 8 – EXPOSURE CONTROLS, PERSONAL PROTECTION

|                          |                                                                                         |
|--------------------------|-----------------------------------------------------------------------------------------|
| Exposure standards:      | For diethyl benzene-1,2-dicarboxylate TWA 5mg/m <sup>3</sup>                            |
| Engineering Controls:    | Not available.                                                                          |
| Fire & Explosion Hazard: | Keep away from heat and open flames.                                                    |
| Respiratory Protection:  | Use NIOSH approved respirator.                                                          |
| Ventilation Protection:  | Use adequate general or local exhaust ventilation.                                      |
| Eye Protection:          | Use goggles or face shields.                                                            |
| Skin Protection:         | Wear appropriate protective gloves to prevent skin exposure.                            |
| Clothing Protection:     | Wear appropriate protective clothing to prevent skin exposure.                          |
| Other Information:       | Avoid inhalation and contact with skin and eyes. Good hygiene practices should be used. |

Wash after any contact, before breaks and meals or using the toilet, and at the end of the work period. Contaminated clothing and shoes should be cleaned before re-use.

## SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

|                                               |                                     |
|-----------------------------------------------|-------------------------------------|
| Appearance:                                   | Clear liquid, Colourless to yellow. |
| Odour:                                        | Perfumistic.                        |
| pH:                                           | No data available.                  |
| Melting Point:                                | No data available.                  |
| Boiling Point:                                | No data available.                  |
| Flash Point:                                  | >100°C (closed cup)                 |
| Flammability (Solid, gas):                    | No data available.                  |
| Upper/lower flammability or explosive limits: | No data available.                  |
| Evaporation Rate:                             | No data available.                  |

Vapor pressure: No data available.  
Vapor Density: No data available.  
Specific Gravity: 1.11 – 1.14  
Solubility: Insoluble in water.  
Log Pow (m-Octanol/Water Partition Coefficient): No data available.  
Auto Ignition Temp: No data available.  
Decomposition temperature: No data available.

## SECTION 10 – STABILITY AND REACTIVITY

Chemical Stability: Stable under normal temperatures and pressures.

Conditions to avoid: Heating, pressurising, and impacting product.

Incompatibilities with other materials: Avoid contact or contamination with strong acids, alkalis, oxidising and reducing agents.

Hazardous Combustion or Decomposition Products: No hazardous decomposition products known.

Hazardous Reactions: Has not been reported.

## SECTION 11 – TOXICOLOGICAL INFORMATION

Acute & Chronic health effects: Chronic, prolonged exposure to the product concentrate may result in irreversible effects.

Possible routes of exposure:

Ingestion: Accidental swallowing is unlikely in the industrial setting. Harmful if swallowed.

Skin/eye exposure: Contact with skin and eyes may result in irritation.

Inhalation: Where this material is used at elevated temperatures vapour may cause irritation to mucous membranes and respiratory tract, headache and nausea.

Range of effects following exposure: Not available

Dose concentration or conditions of exposure likely to cause injury: Not available

Delayed effects: Not available

Relevant negative data: None available

Toxicological Data:

For diethyl benzene-1,2-dicarboxylate

LC 50 inhalation rat >4640mg/m<sup>3</sup>/6hr

LD50 Oral rat 8600mg/kg

Dermal Rat LD50 >10000mg/kg

For 4-hydroxy-3-methoxy benzaldehyde

LD50 Dermal rabbit >5010mg/kg

LD50 Oral rat 3300mg/kg

## SECTION 12 – ECOLOGICAL INFORMATION

For diethyl benzene-1,2-dicarboxylate:

Ecotoxicity:

LC50 - Oncorhynchus mykiss (rainbow trout) - 12.00 mg/l - 96 h

LC50 (Sheepshead Minnow, 96hrs): 29 mg/L

LC50 (Fathead Minnow, 96hrs) : 17 mg/L

NOEC - Lepomis macrochirus (Bluegill) - 1.65 mg/l - 96 h

LC50 Daphnia magna (Water flea) – 90.0 mg/l - 48 h

EC50 Desmodesmus subspicatus (Scenedesmus subspicatus) - 23 mg/l - 72 h

Persistence and degradability:

Biodegradability: aerobic - Exposure time 28d, Result: > 94.6 % - Readily biodegradable.

Bioaccumulation: : The potential for bioaccumulation of Diethyl Phthalate is low. (based on log Pow <3) [ECHA RSD]

Bioconcentration factor (BCF): 117

Harmful to aquatic life. Water polluting substance.

Avoid contaminating waterways, drains or sewers. (Source: SDS)

For 4-hydroxy-3-methoxy benzaldehyde:

LC50 Pimephales promelas (fathead minnow) semi static- 57 mg/l - 96 h

LC50 Pimephales promelas (fathead minnow) static - 88 mg/l - 96 h

LC50 - Pimephales promelas (fathead minnow) flow through - 53 - 61.3 mg/l - 96 h

Aquatic invertebrates: EC50 (21 days) 16 - 24 mg/L

EC50 (48 h) 36.79 mg/L

Aquatic algae and cyanobacteria: EC50 (72 h) 120 mg/L

Persistence and degradability: Readily biodegradable

Bioaccumulative potential: No potential for bioaccumulation (Source: SDS & ECHA)

General:

Ecotoxicity: No specific data available. Avoid release into environment.

Persistence and degradability: No specific data available. Avoid release into environment.

Bioaccumulation: No specific data available. Avoid release into environment.

Mobility in soil: No specific data available. Avoid release into environment.

### **SECTION 13 – DISPOSAL CONSIDERATIONS**

Do not release into any sewers, on the ground, or into any body of water.

Disposal should be in accordance with federal, state and local regulations.

### **SECTION 14 – TRANSPORT INFORMATION**

UN No: Not relevant

UN Shipping Name: Not relevant

Class: Not relevant

Packing Group: Not relevant

Hazchem Code: Not relevant

### **SECTION 15 – REGULATORY INFORMATION**

Regulation (EC) No 1907/2006 (REACH): All the ingredients of the mixture have been registered or are exempt from registration.  
All ingredients listed on AICIS.

### **SECTION 16 – ADDITIONAL INFORMATION**

#### **Entire text of the H and P phrases mentioned in section 2 & 3**

##### **HAZARD STATEMENTS:**

H315 – Causes skin irritation.

H317 – May cause an allergic skin reaction.

H319 – Causes serious eye irritation.

H402 – Harmful to aquatic life.

H412 – Harmful to aquatic life with long lasting effects.

##### **PRECAUTIONARY STATEMENTS:**

P261 – Avoid Breathing dust/fume/gas/mist/vapours/spray.

P264 – Wash thoroughly after handling.

P272 – Contaminated work clothing should not be allowed out of the workplace.

P273 – Avoid release into the environment.

P280 – Wear protective gloves/protective clothing/eye protection/face protection/hearing protection.

P302 + P352 – IF ON SKIN: Wash with plenty of water and soap.

P305 + P351 + P338 – IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do so. Continue rinsing.

P333 + P313 – If skin irritation or rash occurs: Get medical advice / attention.

P337 + P313 – If eye irritation persists: Get medical advice / attention.

P362 + P364 – Take off contaminated clothing and wash it before reuse.

P501 – Dispose of contents / container in accordance with local regulation.

#### **Abbreviations and acronyms**

AICIS: Australian Industrial Chemicals Introduction Scheme

CAS: Chemical Abstracts Services

GHS: Globally Harmonised System

LD50: Median Lethal Dose (50%)

LC50: Median Lethal Concentration (50%)

NIOSH: National Institute of Occupational Safety and Health

STEL: Short Term Exposure Limits

TWA: Time Weighted Average

UN: United Nations

## Key literature references and sources for data
